Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can lose over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

CHILDREN'S HOSIERY.

Dozens of odd lots and odd sizes have accumulated during the season and must be cleared out at once. Nothing but a bargain price, and that a remarkably low one, can make odd lots desirable. For full appreciation of the price cut on these goods all we ask is an examination of them, the closer and more critical the better they'll stand the test of sharpest scrutiny. They are safe, comfortable, well-made stockings for the little feet. Plaids predominate. Red is in high favor with other colors in soft blends that are most pleasing. Some with silk clocking, all in fast colors. Two grades, as follows:

35c. for 19c. 50c. for 35c.

LIGHT PRINTS.

It will set the town a talking—it ought to—this selling of pretty figs. Cotton Dress Prints at 3c. Stripes and plaids, hosts of designs. The goods are perfect in weave and finish. They are a standard make and a liberal dress length.
